PROFESSIONAL EXPERIENCE

Full Stack Developer - Codemaya	Jan 2026 - Present
Products: AI Post social media automation and Tradeline Supply Systems	
- Developed end-to-end React.js/Next.js and Node.js workflows for AI post generation, scheduling, publishing, retry, repost, upload, and post management. - Built WebSocket-driven multi-post generation experiences and responsive management views with search, filters, pagination, status states, and mobile layouts. - Implemented timezone-aware daily, weekly, and monthly recurring schedules, including generation workflows triggered near publishing time. - Resolved staging and production reliability issues, including Heroku H12 timeouts, by adding environment-safe skip logic and bounded network requests. - Hardened backend URL reachability validation for SSL-chain edge cases while retaining protections for invalid, private, internal, and unreachable URLs. - Used Datadog RUM to investigate production behavior and traced cross-tenant media exposure risks across brand-kit, cache, generation, and retrieval paths.	
Web Development Intern - Unified Mentor Pvt. Ltd.	2025
- Built MERN application modules, REST APIs, JWT authentication, and CRUD workflows while integrating responsive frontend components with backend services. - Collaborated through Git/GitHub on feature delivery, debugging, and defect fixes under project deadlines.
